Planning your laboratory

To help us get you a quickly returned budget costing we need certain basic information.

Type of Laboratory i.e. – Chemistry – Physics – Biology

1. Dimensioned Drawing or sketch (this can be a thumbnail sketch or quick drawing as long as we have the overall dimensions we can sort it out at our end)
2. Number of pupils
3. Floor location i.e. – ground floor - 1st floor etc

Will your new laboratory require –?

1. Flooring – do you know if the floor is concrete or wood
2. Decorating to walls – ceiling – windows – doors
4. new ceilings and lighting
5. Number of services required i.e. – gas taps- electrical sockets – sinks – hot and cold water
3. New Cupboard cabinets No of ?
4. Drawer cabinets No of ?
5. Wall Cabinets No of ?
6. Pupil Benching No of ?
7. Loose tables No of ?
8. Do you require Fume cupboards (are there any at the present time)

Best regards

Mark
