Industrial Furniture Case Study

Client:

Location: Brotherton, Yorkshire

Project: New labs, kitchen & toilet facilities

Duration: 4 weeks

Reason for works:

Client expanding product range, therefore, required extra R&D facility

Scope of works:

Converting mixed-use buildings into labs.

The full programme of works consisted of:

- Complete strip out of the existing area
- Installation of furniture, steel frames & worktops
- Glazed partitioning
- Fume cupboards & extraction
- Plumbing – Gas & Water
- Electrical
- Flooring
- Flooring service duct
- Ceilings
- Lighting
- Windows
- Gas cages
- Toilets cubicles & vanity units
- Decoration
- Plastering
- New Kitchen

Outcome:

Completed on time and on budget. Client placed several more orders with us on the back of this successful installation.
